To Whom It May Concern:

Re: Henderson City-County Airport
Community Project Funding Request

Please accept this letter in support of the request by the Henderson (KY) City-County Airport for funding of a 1,000-foot runway extension.

I understand that the airport currently has a 5,504-foot runway. The easternmost 600 feet of the runway are to be relocated to the western part of the runway for safety reasons. The airport has acquired the corridor for this 600-foot section plus a 1,000-foot runway extension.

The airport is applying for community project funding to complete the additional 1,000-foot runway extension, and I support this request. Henderson County is in the midst of an industrial growth that it has not seen in decades. Pratt Paper is currently constructing a facility that will employ 300 people, and that plant is within a few miles of the airport. Interstate 69 is being developed at this time, and it connects to the airport via the Highway 425 Bypass. Alliance Coal recently announced a new mine entrance eight miles from the airport. Due to this growth, a 6,500-foot runway is necessary to serve Henderson County's needs. I fully endorse this project.

Respectfully,

A handwritten signature in black ink, appearing to read "Robby Mills".

March 24, 2023

To Whom It May Concern:

I am writing this letter in support of the runway relocation and expansion project at the Henderson, Ky City-County Airport.

Our airport is an invaluable transportation hub for our community. By extending the runway an additional 1,000 feet, we will be able to accommodate larger aircraft as well as improve safety for our existing patrons during inclement weather.

In the past five years, we have been fortunate to announce a number of new and expanding industries in Henderson, Kentucky, amounting to over 700 new jobs projected to be in our county after ramp-up is complete within the next few years. We also recently announced a 300+ housing development and some significant tourism-related projects such as a new distillery, a new sports complex, and potentially a new regional convention center. The growth here is palpable, and the introduction of a new interstate path (I-69) in our community makes upgrades to other infrastructure a must for our quickly developing community.

We must grow our airport. We have been looking forward to our runway expansion for years, and I fully support our efforts to obtain funding through this Community Project Funding request to help turn our dreams for our airport into a reality for Henderson, Kentucky.

Sincerely,

A handwritten signature in dark ink, appearing to read "Bradley S. Staton", is written over a horizontal line.

Re Henderson City County Airport
Community Project Funding Request

Dear Sir/ Madam:

Please accept this letter in support of the request by the Henderson (Ky) City-County Airport ("Airport") for funding a 1,000 foot runway extension.

I understand that the Airport currently has a 5,504 foot runway. The eastern most 600 feet of the runway are to be relocated to the western part of the runway for safety reasons. The Airport has acquired the corridor for this 600 feet plus a 1,000 foot runway extension.

The Airport is applying for Community Project Funding to complete the additional 1,000 runway extension. I support this request.

Henderson County is in the midst of industrial growth that it has not seen in decades. In the last 18 months we have announced 815 new full-time, high-wage jobs and nearly a billion in capital investment. Pratt Paper is currently constructing a facility that will employ 300 people and that plant is within a few miles of the Airport. I-69 is being developed at this time and it connects to the Airport via the Highway 425 bypass. Alliance Coal recently announced a new mine entrance eight miles from the Airport. Columbia Distribution in Henderson County added 176 jobs and we continue to work with them on future opportunities. Due to this growth, a 6,500 runway is necessary to serve Henderson County's needs. I fully endorse this project.

Respectfully,
